THERMOSAFE LMK LTD

Industrial Heating Technology
for drums IBCs totes & containers

ELECTROPAR
NEW ZEALAND

FAST, SAFE AND EFFICIENT HEATERS FOR DRUMS, IBCs & CONTAINERS

LMK Flexible Heating Jackets

Tried and tested the World over, our range of Flexible Heating Jackets simply wrap around the vessel, clip together and the thermostat can be set to the desired temperature. Standard sizes stocked for 25L up to 1000L IBC tanks. Can be used with metal or plastic containers.

Custom Size Flexible Heating Jackets

Our in-house design facilities ensure that your application is suitably heated according to the demands of the individual application. All jackets are manufactured at our factory in Haverhill and will be on short lead-times.

THERMOSAFE® and FARATHERM™ Induction Heaters

Supremely safe and fast, our timeless induction heaters work by creating their own magnetic field which directly heats the steel wall of the drum. No radiant elements, no moving parts, just a permanent drum heater that you can rely on for a lifetime. Fully ATEX and IECEx certified for use in Zone 1 and 2 Hazardous Areas.

DIGIHEAT™ Base Heater

Designed to provide a direct heat to the underside of any drum up to 205L, the Digiheat's digital thermostat can be set to any point between 0-145°C. Can be used with the Thermosafe or a Flexible Heating Jacket to boost heat rates and ensure a full melt.

(Not ATEX certified)
